

Surgery

Preceptor Manual 2028

Rotation Description

This is a core rotation designed to give students an introduction to the evaluation and management of surgical patients. Students will spend time in both the inpatient (hospital and operating rooms) and outpatient (clinic) environments, and will work with patients seeking pre-, intra-, and post-operative care and counseling. Each student will complete this rotation at least once during the clinical year to provide students sufficient training in the surgical setting.

Preceptor Requirements

Board Certified General Surgeon, NCCPA Certified PA, or Certified NP (B3.05 & B3.06)

Passport Procedures (Surgery)

Students should see the listed diagnoses and perform the listed procedures during this rotation and will be expected to document a minimum of 90% of all minimum exposures by the end of the clinical year, prior to the Summative Skills Stations. If a student does not achieve 80% of the list in this rotation, they will need to submit a plan to complete them in future rotations to satisfy requirements for this interval.

Procedures (Perform/Participate)
Bladder Catheterization
Hospital Discharge Planning
Incision and Drainage
Post-Operative Care/PACU
Postoperative Complication Mgmt
Postoperative Follow Up Visit
Postoperative Pain Management
Preoperative Assessment
Preoperative Counseling/Education
Removal of Sutures or Staples
Scrub/Assist Intra-Operatively

Preceptor Manual 2028

Rotation Learning Outcomes

At the end of the rotation, the successful PA student will demonstrate competency in the following by achieving minimum scores as detailed in the course syllabus:

Knowledge

1. Demonstrate acquisition of necessary medical knowledge to provide pre-operative, intra-operative, and post-operative care to patients (K1)
2. Integrate biomedical science knowledge with patient care scenarios (K2)

Clinical and Technical Skills

3. Gather patient information appropriately through an organized and accurate history in pre-operative and post-operative care patients (CT1)
4. Perform organized and complete physical examinations of patients using proper technique in the surgical setting for patients (CT2)
5. Perform Surgery Passport Procedures (listed below) both safely and correctly (CT3)
6. Deliver accurate and complete documentation and verbal presentation of patient interactions in the surgical setting (CT4)

Clinical Reasoning

7. Analyze clinical findings to develop and assess differential diagnoses for pre-operative and post-operative care (CR1)
8. Accurately order, interpret, and apply diagnostic tests to patient care in the surgical setting (CR2)
9. Develop individualized, evidence-based treatment plans for patients in the surgical setting (CR3)
10. Utilize appropriate medical resources to improve delivery of patient-centered care and demonstrate evidence-based decision making in the surgical setting (CR4)

Interpersonal Skills

11. Provide accurate patient communication, education, and counseling with compassion and effectiveness to facilitate shared decision-making for patients in the surgical setting (IP1)
12. Establish professional relationships and communication skills with patients, preceptors, and clinical staff (IP2)

Professional Behaviors

13. Demonstrate understanding of the PA profession, including ethical, legal, and regulatory guidelines for practice (PB1)
14. Engage in self-assessment to drive professional growth, incorporate constructive feedback, and seek assistance when needed (PB2)
15. Deliver culturally humble, patient-centered care for patients, accounting for individual patient needs (PB3)

Surgery Preceptor Manual 2028

Preceptor Evaluation of Student Performance - Surg

Instructions

Please give the student one of the following ratings for each item on this survey. Any response of 1 or 2 requires a comment to help faculty understand the nature of the deficiencies.

Please note: a passing grade for a student is a score of 3/5

Item Score	Grade	Qualities Associated with Item Score
5	100%	Exceptional Performance The PA student completes their tasks with confidence and accuracy and can generally operate independently. The student is aware of their limitations and regularly seeks critique and direction to improve.
4	90%	Good Performance The PA student completes their tasks with regular collaboration and direction from their preceptor. The student is aware of their limitations and responds well to critique and direction.
3	80%	Acceptable Performance The PA student completes their tasks at a minimal acceptable level with consistent collaboration and direction from their preceptor. The student is aware of their limitations and makes an effort to improve based on critique and direction when offered.
2	70%	Poor Performance The PA student struggles to complete tasks correctly after receiving guidance and direction. The student is usually aware of their limitations but frequently does not show the ability to improve through preceptor critique and direction.
1	0	Dangerous Performance The student demonstrates dangerous clinical skills or decision-making that, if not corrected, would directly cause harm to the patient. The student is unaware of their limitations and/or does not seek or implement critique and direction.

Rotation Learning Outcomes

If the preceptor has questions about how a student would demonstrate any of the Rotation Learning Outcomes, please reference the Surgery Rotation Manual – Instructional Objectives

Knowledge (Rate 1-5)

- Demonstrates acquisition of medical knowledge necessary to provide pre-operative, intra-operative, and post-operative care in the surgical setting
- Integrates appropriate understanding of basic/biomedical sciences with patient cases

Any comments related to student knowledge regarding the care setting (pre-operative, intra-operative, and post-operative care):

Surgery

Preceptor Manual 2028

Clinical and Technical Skills

- Demonstrates ability to take appropriate history for pre-operative and post-operative care
- Performs organized and complete physical examinations of patients using proper technique
- Demonstrates appropriate physical exam skills in the surgical setting for patients
- Performs clinical procedures safely and correctly
- Delivers accurate verbal presentations of patient cases, recognizing pertinent positives and negatives

Any comments related to student clinical skills:

Clinical Reasoning

- Analyzes clinical findings to develop and assess differential diagnoses for pre-operative and post-operative care
- Accurately orders, interprets, and applies diagnostic tests to patient care in the surgical setting
- Develops individualized, evidence-based treatment plans for patients in the surgical setting
- Utilizes appropriate medical resources to improve delivery of patient-centered care and demonstrate evidence-based decision making in the surgical setting

Any comments related to student clinical reasoning regarding the care setting (pre-operative, intra-operative, and post-operative care):

Interpersonal Communication

- Provides accurate patient communication, education, and counseling with compassion and effectiveness to facilitate shared decision-making
- Establishes professional relationships and communication skills with patients, preceptors, and clinical staff

Any comments related to student communication regarding interpersonal communication:

Professional Behaviors

- Demonstrates understanding of the physician assistant profession, including ethical, legal, and regulatory guidelines for practice
- Engages in self-assessment, incorporates feedback from preceptor, and seeks assistance when needed
- Delivers culturally humble, patient-centered care for patients, accounting for individual patient needs

Comments addressing professional behavior or any additional insight into statement

Surgery Preceptor Manual 2028

Program Goals

- Demonstrated demonstrate collaboration, innovation, and a commitment to personal and professional growth
- Demonstrated effective leadership skills
- Demonstrated humility, integrity, and compassion
- Any additional comments
